

Class Assignment 1

Comparative analysis of Data Professional Skills

SECP 3843
Special Topic for Data Engineering

innovative • entrepreneurial • global

Instruction:

- Search from reliable sources and job advertisement websites (eg Jobstreet and others), the type of skills required for data engineer, data analyst and data scientist, respectively.
 - Analyze the similarity and differences between the required skills.
 - Present your findings in a form of a table.
 - Conclude your findings and analysis.
 - Submit your assignment through e-learning on **Thursday 27 March 2025 at 5pm.**
